4.1 Full-time	4.2 The programme corresponds to the Bulgarian Higher Education Act and to the Ordinance on the State Requirements for Acquiring Higher Education by educational and qualification degrees "Specialist", "Bachelor" and "Master". (Article 42 (1) 1. b of the Bulgarian Higher Education Act; Decree No. 162 / 23.07.2002 of the Council of Ministers of Republic of BULGARIA) www.mon.bg Rules and Regulations of the University: www.swu.bg

Explanatory note

This Diploma Supplement model was developed by the European Commission, Council of Europe and Unesco/CEPES. The purpose of the supplement is to provide sufficient independent data to improve the international 'transparency' and fair academic and professional recognition of qualifications (diplomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgements, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.

More information on Europass: <http://europass.cedefop.europa.eu>

5. INFORMATION ON THE FUNCTION OF THE QUALIFICATION

Access to further study

5.1 Access to the Second Degree (MASTER's Degree)

Professional status

5.2 Bachelors in Informatics have all the rights to work as computer specialists - programmers, system and network administrators and designers, graphic designers, scientists, experts in software and hardware technologies etc.

6. ADDITIONAL INFORMATION

Additional information

6.1 The South-West university is a place of rich educational and scientific activities, one of the most authoritative spiritual centres outside the capital of Bulgaria. There are about 11500 Bulgarian and foreign students at the university, who study in 277 degree programmes.
The Faculty of Mathematics and Natural Sciences currently offers 14 Bachelor, 16 Master, and 16 PhD degree programmes. The faculty also offers specialized courses for further education and a program for obtaining a qualification as a Secondary School Teacher of natural science disciplines.
Graduates in Informatics have gained knowledge, skills and competences which allow them to: adapt and introduce program products and systems; take part in development of program products and packages; use mathematical models and software packages for solving real economic, engineering and management problems in continuous and discrete macrosystems; solve various optimization problems; use computer systems for automating the production process and management.
